SUMMARY

I'madriven Computer Science undergraduate at SRM Institute of Science and Technology with a strong foundation in software development and web technologies. I've built hands-on projects using Java, Swing, React, and Next.js, and actively participate in hackathons and technical workshops. Furthermore, I'm keen to explore the field of artificial intelligence and excited to contribute to AI-related projects while continuing to strengthen my practical skills. I thrive in collaborative environments and am always eager to take on new challenges that fuel my growth as a developer.

EXPERIENCE

Frontend Developer

MARGSOFTTechnologies(P) Limited

06/2025 Lucknow

- Designed and developed interactive 3D websites using Three.js, GSAP, Lenis, and Blender, creating scroll-triggered animations, custom models, and smooth user experiences.
- Built complete prototypes, including a streetlight maintenance portal and a vehicle tracking system, integrating custom .glb models, spotlights, camera systems, and interactive elements
- Implemented advanced scroll and pinning behavior with ScrollTrigger and GSAP, enabling horizontal sections, split-text animations, dynamic camera switches, and light controls.
- Proactively self-taught modern 3D web rendering workflows, leveraged Al tools (e.g., ChatGPT,replit, claude Al) for debugging and rapid iteration, and ensured deep understanding of backend connections (API calls, JWT auth, MongoDB basics).

PROJECTS

Hotel Management System

2023 Chennai, India

- **Situation**: Noticed the need for a desktop-based hotel system to streamline room bookings, staff, and customer data.
- **Task**: Designed and implemented a complete hotel management application with GUI for managing rooms, drivers, and booking details.
- **Action**: Built the front-end using Java Swing; integrated with MySQL using JDBC for real-time data storage and retrieval; implemented login/sign-up authentication and progress tracking for training videos.
- **Result**: Delivered a fully functional system improving administrative efficiency; enabled real-time room and driver management with a clean UI, and achieved 100% feature completion for demo-ready presentation.

Judicial Case Clustering & Geospatial Analytics (India)

Python, NLP, Machine Learning, TF-IDF, K-Means, LDA, GMM, DBSCAN, Plotly, Dash

- Built an end-to-end analytics pipeline to process 27,000+ Indian judicial case documents, extracting structured metadata (court, state, district, IPC sections) from unstructured legal text and preparing high-dimensional TF-IDF representations for analysis.
- Implemented and systematically compared K-Means, GMM, DBSCAN, and LDA for legal text clustering, using a seed-map–based semantic labeling framework and multi-metric evaluation (Silhouette, ARI, NMI, Label Coverage) to analyze trade-offs between geometric cohesion and legal interpretability.
- Developed an interactive geospatial dashboard (Plotly + Dash) to visualize clustered cases across India, enabling exploration of regional litigation hotspots, crime-specific spatial trends, and the relationship between thematic clusters and judicial geography.

EDUCATION

B.Tech in Computer Science with specialization in Information Technology

SRM Institute of Science and Technology

2023 - 2027 Chennai, India

GPA
9.7 / 10.0

Class XII

LittleFlower School

2020 - 2021 Gorakhpur, India

Percentage
92.8 / 100

Class X

LittleFlower School

2018 - 2019 Gorakhpur, India

Percentage
92.8 /100

SKILLS

Programming Languages: Java C C++ JavaScript

Web Technologies: HTML CSS Three.js

Frameworks/Tools: Java Swing

Machine Learning: Regression and Classification

Others: DSA OOPS

KEY ACHIEVEMENTS

Z **Academic Excellence**
Achieved a GPA of 9.68 in the 1st semester, 9.9 in the 2nd semester, and a perfect 10 in the 3rd semester.

Scholarship Recipient
Awarded a scholarship of ₹72,000 in recognition of academic excellence, highlighting commitment to intellectual growth.

& **Top Ranker in IT Department**
Secured the 4th rank in the IT Department, reflecting strong technical proficiency and dedication to learning.

CERTIFICATION

0 to100 FullStackWebDevelopment Course by Harkirat Singh
100xDevs by Harkirat Singh
